

QINEO-TT-HG-150

TIG manual welding torch, gas-cooled, up to maximum 150 A welding current

The light and handy TIG manual welding torch QN-TT-HG-150 is designed for a welding current of up to 150 amperes. The ergonomic handle lies perfectly in the hand and enables fatigue-free and precise welding. Stable and high-quality components ensure maximum process reliability and optimum welding results. We supply all TIG manual welding torches with individual connections and different cable assembly lengths. We integrate remote control and operating elements as required. Contact us and get your individual TIG welding torch as you need it for your application.

- Ergonomic handle: Optimum handling and a minimised strain on wrists
- Stable components: Maximum service life
- Optimum quality: Optimum welding results in all welding positions

QINEO-TT-HG-150

Technical Data	
Type of cooling	gas cooled
Capacity DC	150 A
Power AC	120 A
Duty cycle (ED)	60%
Electrode gage	0.5-3.2 mm
Equipped for electrode	1.6 mm

Application
Manual

Process
• TIG DC welding • TIG AC/DC welding
